

Will Newey: An Autobiographic Experience

Aerospace Engineer by day, Tubist by night. I just finished my bachelor's degree at Cal Poly, San Luis Obispo in aerospace engineering and start my master's studies in the same this coming year(ask me what my favorite airplane is). I also find time for 4 Cal Poly performing groups and a local Dixieland jazz band in San Luis Obispo where I play tuba/sousaphone. For even more fun, I road cycle and downhill mountain bike almost every weekend. This will be my 12th year of DMMC and my first as an activities coordinator! I cannot wait to share the 30th year of DMMC with you! Hope you packed your smile because Rebecca and I are planning A LOT of fun.
